RATE HEARINGS CLOSED.

erce Commission to Pass on 15 Per Cent. Advance.

Washington, June 12.—Hearings on the application of the railroads for a 15 per cent, horizontal raise in freight rates were closed to-day by the Interstate Commerce Commission. The commission has eighteen days before it in which to consider the most momentous case in point of railroad finance ever brought before any tribunal.

A 15 per cent, freight rate advance would mean in round numbers \$300,000,000 annually, according to figures of shippers, and would affect virtually every industry. The carriers have rested their case on the statement that increased labor costs, due to the Adamson law and higher cost of materials, fuel and supplies, have caused an emergency.

supplies, have caused an emergency.

Shippers have submitted data designed to show that earnings of the roads are on an increase, and that the year 1917 will be the best in history, except 1916, which was the peak period of railway earnings.
